

Transforming your space starts with a proven system:

Surface Prep – We mechanically grind the concrete to remove old coatings, stains, and imperfections. This ensures maximum adhesion.

Crack & Pit Repair – We patch and smooth any damage so your floor starts flawless.

Primer & Base Coat – A high-performance epoxy base is applied to lock in durability and create a seamless foundation.

Decorative Flake Broadcast – Choose your color blend. We fully broadcast vinyl flakes for texture, traction, and style.

Clear Topcoat – A UV-stable polyaspartic topcoat seals the deal—resistant to chemicals, scratches, and fading.

✔ Most jobs completed in 1 day ✔ Backed by a residential warranty ✔ Designed for Florida heat, humidity, and wear
